Adjustable Sports Protective Helmet

Multi-Sports Helmet Suitable for Scooter
with Adjustable Dial System and Strap, Safe for Kids

USER MANUAL

GENERAL SAFETY USE AND CARE

A helmet can provide important protection if fitted and worn correctly.

A helmet must be correctly worn and maintained to provide protection.

Carefully read and follow these instructions. Incorrect use or maintenance of your helmet could lead to serious injury or death.

- No helmet can protect the wearer against all possible impacts.
- The helmet is designed to be retained by a strap under the lower jaw.
- To be effective, a helmet must fit and be worn correctly. To check for correct fit, place helmet on head and make any adjustments indicated. Securely fasten retention system. Grasp the helmet and try to rotate it to the front and rear. A correctly fitted helmet should be comfortable and should not move forward to obscure vision or rearward to expose the forehead.
- No attachments should be made to the helmet except those recommended by the helmet manufacturer.
- The helmet is designed to absorb shock by partial destruction of the shell and liner. This damage may not be visible. Therefore, if subjected to a severe blow, the helmet should be destroyed and replaced even if it appears undamaged.
- The helmet may be damaged and rendered ineffective by petroleum and petroleum products, cleaning agents, paints, adhesives and the like, without the damage being visible to the user.
- A helmet has a limited lifespan in use and should be replaced when it shows obvious signs of wear.
- This helmet should not be used by children while climbing or doing other activities where there is a risk of hanging or strangulation if the child gets trapped while wearing the helmet

RIDE SAFELY

No helmet can protect the wearer against all possible impacts. A severe impact, sharp object, improper use, or incorrect adjustment could cause conditions beyond the protection of the helmet.

REPLACE AN OLD HELMET OR HELMET WITH DAMAGE

The helmet has a limited lifespan and should be replaced when it shows obvious signs of wear. Helmet parts lose strength over time, so even if the helmet has not been impacted or damaged, replace it after 3 years.

AVOID HEAT

Do not expose your helmet to heat such as inside a car on a sunny day. Excessive heat can damage the liner or the shell, or even make them separate.

Clean with mild soap and water only.

USE ONLY FOR BICYCLE RIDING, SCOOTING AND SKATEBOARDING

This helmet is designed for use in recreational bicycle riding, scooting and skateboarding. It does not offer the same protection as a helmet designed for use in rock climbing, skiing, motor sports or motor cycling. If you choose to do stunts or tricks, ride off-road or ride at high speeds, you should choose a helmet with more protection.

PRECAUTIONS

Anything between your head and the helmet can reduce the protection. A cap, scarf, or even some high-volume hairstyles might allow the helmet to move during impact. Barrettes, headphones, or anything else under your helmet can injure you if the helmet is impacted. Do not modify the helmet. No attachments should be made to the helmet except those recommended by the helmet manufacturer. This includes stickers or adhesive labels.

INSTRUCTIONS FOR SIZING AND FITTING HELMET

1. Fit padding to a firm but comfortable fit. Place on head.
2. Snap buckles (A) and (B) together and pull down on strap (C). To loosen strap, place thumb under buckle at point (F) and lift out of face.
3. Adjust straps through buckle (D) & E to achieve even tension on chin and nape straps.
4. Once all the adjustments have been made, check that the helmet will not rotate to the front or rear.

Adjustable Sports Protective Helmet

**Multi-Sports Helmet Suitable for Scooter
with Adjustable Dial System and Strap, Safe for Kids**

Features:

- Kids Multi-Sports Helmet
- With 11 Holes Ventilation System
- With Soft and Comfortable Helmet Surface
- Great Comfort with Extra Padded Edges
- Easily Adjust Vertically and Horizontally for a Tighter and Snugger Fit
- Helmet with Adjustable Rotary Internal Regulator
- Suitable for: 3-8 years old (Depending on the Child's Head Circumference)
- Breathable Sponge Pad can be Removed and Easily Washed
- Provide Comfortable and Safe Sports Experience
- Adjustable Dial System and Strap
- Impact Resistance and Sturdy
- Good Heat Dissipation
- Double Buckle to Provide Support and Adjustment

What's in the Box:

- Helmet
- Carry Bag

Technical Specs:

- Construction Material: Engineered ABS Shell+EPS Lining material
- Head Circumference: Adjustable (48-54cm)
- Product Dimension: 8.3" x 5.9" x 9.5"-inches
