

Thanks for choosing this hand drum.

Open the bag and you will find a drum, tune labels and two mallets.

Sticker the tune labels like below if you want, it is better not stick them if you can remember tone on each tongue in order to have better sound hitting on the tongue directly.

You can play with the mallets or by your hands or fingers

Protect the drum in the bag when in travel or storage

10" 8 tongue C major 262hz
