Play & Charge Docking System for iPhone/ iPod w/ Aux Input Clock Radio/ FM receiver & Dual Alarm Clock

Warning

Signal Word Definitions

DANGER – Indicates an imminently hazardous situation, which, if not avoided, will result in death or serious injury. This symbol appears only in the most extreme situations.

WARNING - Indicates a potentially hazardous situation which could result in death or serious injury.

CAUTION - Indicates a potentially hazardous situation, which, if not avoided, may result in minor/ moderate injury or product/ property damage. It also alerts against unsafe practices.

This symbol is a warning sign alerting you of "DANGEROUS VOLTAGE" INSIDE THE PRODUCT.	**CAUTION** RISK OF ELECTRIC SHOCK. DO NOT OPEN. CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.	This is a warning sign alerting you of important instructions accompanying this product.

READ ALL INSTRUCTIONS BEFORE USE

Always follow basic safety precautions when using electrical products, especially when children are present.

Congratulations on your purchase of this alarm clock with iPod/iPhone dock. To get the most from your device, please take a few minutes to read these instructions.

WARNING - To reduce the risk of fire, electric shock or serious personal injury. Do not open the unit. This product is intended for indoor, non-industrial, non-commercial use; do not use the product outdoors. Do not mount this product on a wall or ceiling.

1. Always follow basic safety precautions when using electrical products. Children should be supervised to ensure that they do not play with appliances.
2. Do not allow children to operate the unit without adult supervision.
3. Read this instruction manual carefully before you attempt to use the unit.
4. Consult your dealer or service personnel if you have further questions about the operation or safety of the unit.
5. Do not expose the product to temperatures above 35°C. Keep it in moderate climates.
6. The apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed near the product. **Dry location use only.**
7. No naked flame sources, such as candles, should be placed on the product.
8. Keep the power cord and product away from heated surfaces.
9. Keep at least 5 cm of space around the unit for sufficient ventilation.
10. The ventilation holes should not be blocked up by things such as newspapers, dusters, curtains, etc. Place the product where there is good air circulation.
11. Do not place or drop the product into water or other liquids. If the product falls into water, immediately unplug it from the electrical outlet; do not pull on the power cord.

13. Dispose of used batteries in an environmental friendly way.
14. Do not place the unit near TV, speakers, and other objects that generate strong magnetic fields.
15. Do not clean the unit with strong chemical agents.
16. This product has no user-serviceable parts. Do not attempt to dismantle or repair this unit yourself. This unit should be repaired by qualified service technician only.
17. Do not operate the unit if it is not working normally or has been damaged in any way. Turn the unit off. Unplug it from the power source. And consult service personnel.
18. Do not remove any fixed cover. This will increase the chance of electrical shock.
19. Press the player's buttons gently. Pressing them or the screen too hard can damage the player.
20. Do not push any objects into holes, slots, or openings on the unit. This could result in fatal electric shock.
21. Do not subject the product to harsh impacts. Do not drop the appliance. This may result in damage to the product and loss of data.
22. Care is required for the use of this apparatus in tropical and/ or moderate climates.
23. Do not use the player in an extremely dry environment, as this can lead to static discharge, which can damage the player.
24. Only use attachments/ accessories specified by the manufacturer.
25. Unplug this apparatus during lightning storms or when it is unused for long periods of time.

Compliance with FCC Regulations

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE : This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Content

Preparation for Use

1. Standard accessories

Unpack the unit carefully. Carefully remove all the accessories from the display carton. We recommend that you save the box and packing materials, in case you wish to store the unit. Don't remove any labels or sticker on the rear of the unit and adaptor. Before setting up the unit, verify that the following access-ories are present :

    --   Instruction manual
    --   1 x AC/DC power adaptor
    --   Remote control

2. Power source

This unit is supplied with an AC adaptor, take the following steps to connect the adaptor.

a. Unwind the power cord of the AC/DC adaptor to its full length.
b. Connect the DC plug of the AC/DC adaptor to the DC socket on the rear of the unit.
c. Plug the AC adaptor to the AC outlet (100-240V ~50/60Hz). Connecting this system to any other power source may cause damage to the system. For sufficient ventilation, Keep other objects at least 10cm away from the unit.
3. AC Adaptor Operation

a. Insert one end of the AC adaptor into the DC jack on the back of unit.
b. Connect the AC plug of AC adaptor to an AC power source.

Note: Unplug the AC adaptor and disconnect the DC jack when the unit is not in use for a long period of time.
