Food Processor
Model: GS-509

Please read all instructions carefully before using.
IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed, including the following:

1. Read and save all instructions.
2. To protect against risk of electrical shock, do not immerse base, motor, cord, or plug in water or other liquid.
3. Close supervision is necessary when any appliance is used by or near children.
4. This appliance should not be used by children.
5. Unplug cord from outlet when not in use, before putting on or taking off parts, and before cleaning.
6. Avoid contacting moving parts.
7. Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions or is dropped or damaged in any manner. Call our toll-free customer service number for information on examination, repair or electrical or mechanical adjustment.
8. The use of attachments not recommended or sold by the appliance manufacturer, may cause fire, electric shock, or injury.
9. Do not use your food processor if any part is broken.
10. Do not use appliance outdoors.
11. Do not let cord hang over edge of table or counter, or touch hot surfaces.
12. Keep hands and utensils away from moving blade and disc while processing food to reduce the risk of severe personal injury and/or damage to the food processor. A rubber scraper may be used but ONLY when the food processor is not running.
13. The blade and disc are sharp. Handle carefully. Store out of reach of children.
14. To reduce the risk of injury, never place cutting blade or disc on base without first putting bowl properly in place.
15. Be certain lid is securely locked in place before operating appliance.
17. Do not attempt to defeat the lid interlock mechanism.
18. Make sure the blade or disc has come to a full stop before removing lid.
19. To reduce the risk of injury, be sure to insert or remove blade and disc using hubs provided for this purpose. Use caution when removing blade and disc from the bowl, when emptying the bowl, and when cleaning.
20. Be sure to turn switch to OFF (O) position after each use. Always use the pusher to clear the food chute. When this method is not possible, turn the motor off and disassemble unit to remove the remaining food.
21. The appliance is not intended for commercial, professional or industrial use. It is designed and built exclusively for household use only.
22. Never use appliance for a longer period or with a larger amount of ingredients other than that recommended by appliance manufacturer.
23. The maximum rating of this unit is based on using the Chopping/Mixing Blade. Using the Slicing/Shredding Disc may draw significantly less power.
24. Do not place on or near a hot gas or electric burner or in a heated oven.
25. Do not use appliance for other than intended use.
26. This appliance is not intended for use by persons (including children) with sensory or mental capabilities, or lack of experience and knowledge, unless given supervision or
Other Consumer Safety Information

WARNING! Shock Hazard: This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit into a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to modify the plug in any way.

To avoid an electrical circuit overload, do not use another high wattage appliance on the same circuit with your food processor. The length of the cord used on this appliance instruction concerning use of the appliance by a person their safety.

Children should be supervised to ensure that they do not play with the appliance.

27. This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.
was selected to reduce the hazards of becoming tangled in, or tripping over a longer cord. If a longer cord is necessary, an approved extension cord may be used. The electrical rating of the extension cord must be equal to or greater than the rating of the appliance. Care must be taken to arrange the extension cord so that it will not drape over the countertop or tabletop where it can be pulled on by children or accidentally tripped over.

### Using Your Food Processor

#### How to Lock the Bowl

Align base and bowl as illustrated. Turn bowl clockwise until it locks into place. The bowl will lock onto the base in 3 different positions for user convenience.

**NOTE:** The food processor will not work unless the bowl is locked into position.

#### How to Assemble and Lock the Lid

Align lid as illustrated by placing thumb on lid tab and twisting lid clockwise. Four visual alignment markers are provided (see illustration), one on bowl, one on handle and two on bowl lid.

**NOTE:** The food processor will not work unless the lid is locked into position.

#### How to Operate the Controls

The control dial is conveniently located on the front of the base. Rotate the knob clockwise to speed up. Rotate counterclockwise to slow down. For instant on and off control, use the PULSE button by rotating knob counterclockwise. To turn off the machine, rotate the switch to OFF(O).

#### Processing Tips and Techniques

*This food processor is excellent to chop, mix, slice, or shred most foods, however, to maintain peak performance, do not use your food processor for the following: grinding grain, coffee beans or spices; slicing frozen meat; or crushing ice.

*To achieve maximum capacity, use Chopping/Mixing blade of Big Mouth and add food no higher than the maximum fill line on food chute. See Food Processing Charts for more information. Operating time will depend on quantity of food being processed. Most foods can be sliced, chopped, shredded, or pureed in seconds. If unit is operated for 30 seconds continuously, let the processor rest about 3 minutes before continuing.

#### Processing Using Chopping/Mixing Blade

*The Chopping/Mixing Blade can be used to coarsely chop, finely mince, mix, or purée food to a smooth consistency.

1. Make sure the Control Switch is turned to OFF (O) and the unit is unplugged.
2. Lock the bowl onto base. (See "How to Lock the Bowl" on page 3.)
3. Place the Chopping/Mixing Blade onto motor shaft of food processor in center of bowl. Turn slowly until blade drops into place. Handle carefully; the blade is sharp.
4. Lock lid onto bowl. Insert food pusher into food chute.
5. Do not puree or mash starchy vegetables like potatoes. They will be over-processed in a second and turn gummy.

5. Plug in unit and process food. The processing speed and time will determine the finished consistency of the food. The Pulse button can help you avoid overprocessing. Reference the food processing chart for recommended processing times and speeds.

6. When finished processing, select OFF (O) or release from PULSE position. Wait until blade has stopped rotating before removing lid. Unplug the unit.
