23. Do not use outdoors.

HOW TO USE

This product is for household use only.

Getting started

1. Remove all packing material and any stickers.
2. Wipe plates with a damp cloth or sponge to remove any dust. Wipe dry with a soft cloth or paper towels.
3. Select a location where the unit is to be used, leaving enough space between the back of unit and wall to allow heat to flow without damage to cabinets and walls.

4. Turn off the temperature controller, plug to machine with its upward.
5. Plug the appliance into the mains supply, as per the rating label shows.
6. Adjust the dial to low grade for preheat then adjust the controller to suitable grade to suit frying different food. There are five adjustable grade temperature .
7. To remove the flat, do not use metal utensils: they can indeed damage the nonstick coating. Always use a spatula, wooden utensils or silicone heat resistant.
8. When cooking, be careful to spill sauce, juice or any liquid that is not easy to clean after cooling down the gap between baking pan and housing.
9. **Important:** Steam may be released between the cooking plates. **Caution** should be taken to prevent hands or face from coming into contact with the steam.
10. After use, turn the temperature knob to 0 position, unplug unit from the electrical outlet and allow it to cool down until reaching room temperature before cleaning.
11. Take out the detachable grease Tray carefully and pour the cold oil to clean up.

HOW TO OPEN AND CLOSE THE GLASS LID:

Have one lock under handle to clamp the bottom housing when closing the clamshell glass lid.
Please use hand to clamp to loose lock when you open the shell glass lid then slip glass lid to the slot. Please refer to below image:

Please lift the glass lid along the slot to the top baffle position then push and close the glass lid lock to the bottom housing. Machine may be damaged if its not lifted up glass lid to the baffle.

Please refer to below images:

CARE AND CLEANING

Important: Unplug and allow it to cool before cleaning.

Never immerse the machine in water or any other liquid.

1. Wipe lid, base, and cooking plates with a damp cloth and a non-abrasive soap or dishwashing detergent. Wipe with a clean, soft, damp cloth or towel to dry.
2. **Storage:** Store the cleaned machine in a clean dry place.
3. **Important:** Never take out the detachable grease tray to clean when the oil is still hot
4. **Important:** Never store while it is still hot or still plugged in.
5. **Important:** Never wrap cord tightly around the appliance. Do not put any stress on cord where it enters unit, as this could cause it to fray and break.
