Waterproof Rearview Backup Camera & Video Monitor System Kit, Angle Adjustable Night Vision Cam, 7" Display, Front and Rear Vehicle Mounting

USER MANUAL

Please read instructions carefully before installation and use. Installation should be performed by a professional installer. To ensure your safety, the driver should not watch videos or operate features on the monitor while driving. There are no serviceable parts in this unit, do not disassemble or try to repair this unit. If the unit malfunctions please return to your vendor or send to a Pyle repair facility. Please observe and obey the local laws and regulations when installing the unit.

Upon Installation, please make sure as to not to interfere with any of the vehicle's safety features, wiring, components, etc. We are not responsible for any damages, injury, malfunctions or otherwise noted due to faulty or non-professional installation.

Connection

Connect the camera's threaded locking 4-pin cable connectors into the female receiving connection of the included 4-pin extension cables. The extension cables then connect to your compatible video monitors with 4-pin receiving connectors. The threaded locking cable connectors of the camera serve to provide power and video for all cameras.

Please remember to disconnect your vehicle's battery prior to any connection / installation. Use the included wiring harness to provide power and video signals to your monitor. There are colored wires to assist in the video camera system setup. See the wiring diagram for connections between cameras, monitor and your vehicle.

Versatile Mounting Installation

Wiring & Connection

The Reverse trigger cable is for the Ch1 and Ch2, connect the front view camera to the Ch2, connect the reverse backup camera to the Ch1, when the truck in reverse status, the reverse camera would be priority.

Cut for Reverse View:
