INSTALLATION

Notes:

- Choose the mounting location where the unit will not interfere with the normal driving function of the driver.
- Before finally installing the unit, connect the wiring temporarily and make sure it is all connected up properly and the unit and the system work properly.
- Use only the parts included with the unit to ensure proper installation. The use of unauthorized parts can cause malfunctions.
- Consult with your nearest dealer if installation requires the drilling of holes or other modifications of the vehicle.
- Install the unit where it does not get in the driver's way and cannot injure the passenger if there is a sudden stop, like an emergency stop.
- If installation angle exceeds 30° from horizontal, the unit might not give its optimum performance.

- Avoid installing the unit where it would be subject to high temperature, such as from direct sunlight, or from hot air, from the heater, or where it would be subject to dust, dirt or excessive vibration.

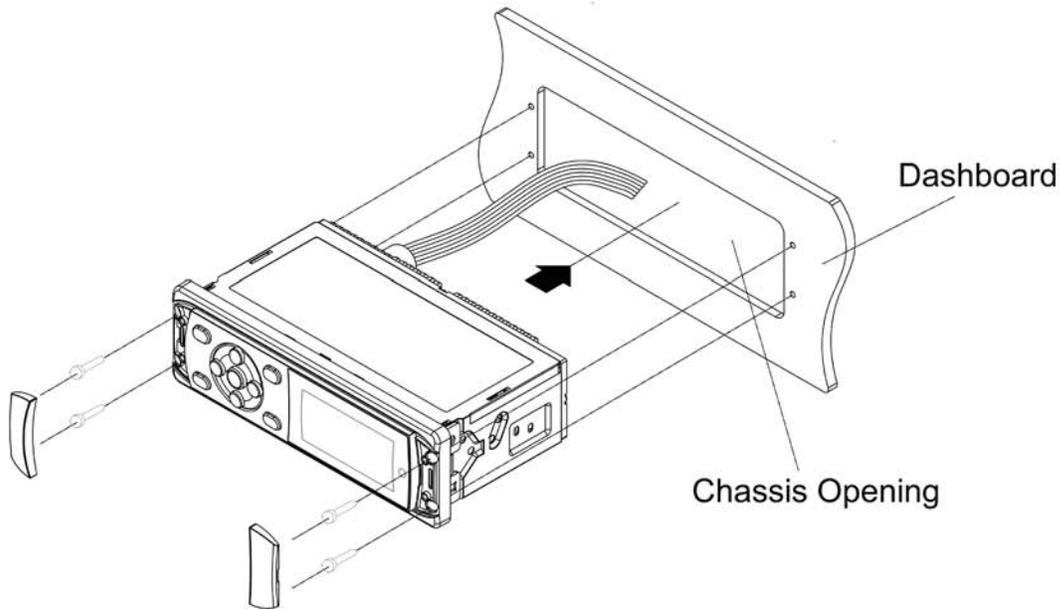

Installation:

PLMR14BW

Headunit Receiver Features:

PLMR14BW

- In-Dash Console Marine Stereo System
- Universal Receiver with Front Panel Mounting Screws
- Perfect for Custom Installations & Applications
- Water-Resistant & Weatherproof Construction
- Bluetooth Wireless Music Streaming
- Rear Panel USB Flash Drive Reader
- MP3 Digital Audio File Compatibility
- AM/FM Radio - 30 Station Memory Presets
- Rear RCA (L/R) Input/Output Connector Jacks
- Ability to Connect Additional External Devices
- Integrated Weather Band System
- Illuminated Button Controls
- LCD Digital Display Panel
- Bass, Treble, Balance, Fader Adjustment
- EQ Audio Configuration

Bluetooth Connectivity:

- Built-in Bluetooth Wireless Music Streaming Receiver
- Compatible with All of Your Favorite Bluetooth Devices (iPhone, Androids, Smartphones, iPad, Tablets, etc.)
- Bluetooth Version: 2.0 +EDR
- Bluetooth Network Name: 'CAR KIT'
- Bluetooth Network Password: '0000'
- Wireless Range: 32'+ ft.

What's in the Box:

- Marine Stereo Receiver
- Wireless Remote Control
- Power & Wiring Harness Adapters

Receiver Technical Specs:

- Single DIN Universal Standard Size
- Peak Output Power: 200 Watt
- Marine Grade Rating: IP-X5
- MPX/PLL Tuning Radio System
- Random/Repeat Audio File Functions
- Weather Band Freq. Range: 162.400 - 162.550MHz
- S/N Ratio: >55dB
- Tone Controls: +/-10dB
- Stereo Separation: >45dB
- Current Drain: 10 Amp
- Power: DC 12V
- Digital Audio File Support: MP3, WMA
- Chassis Dimensions (L x W x H): 3.93" x 3.93" x 2.75" -inches

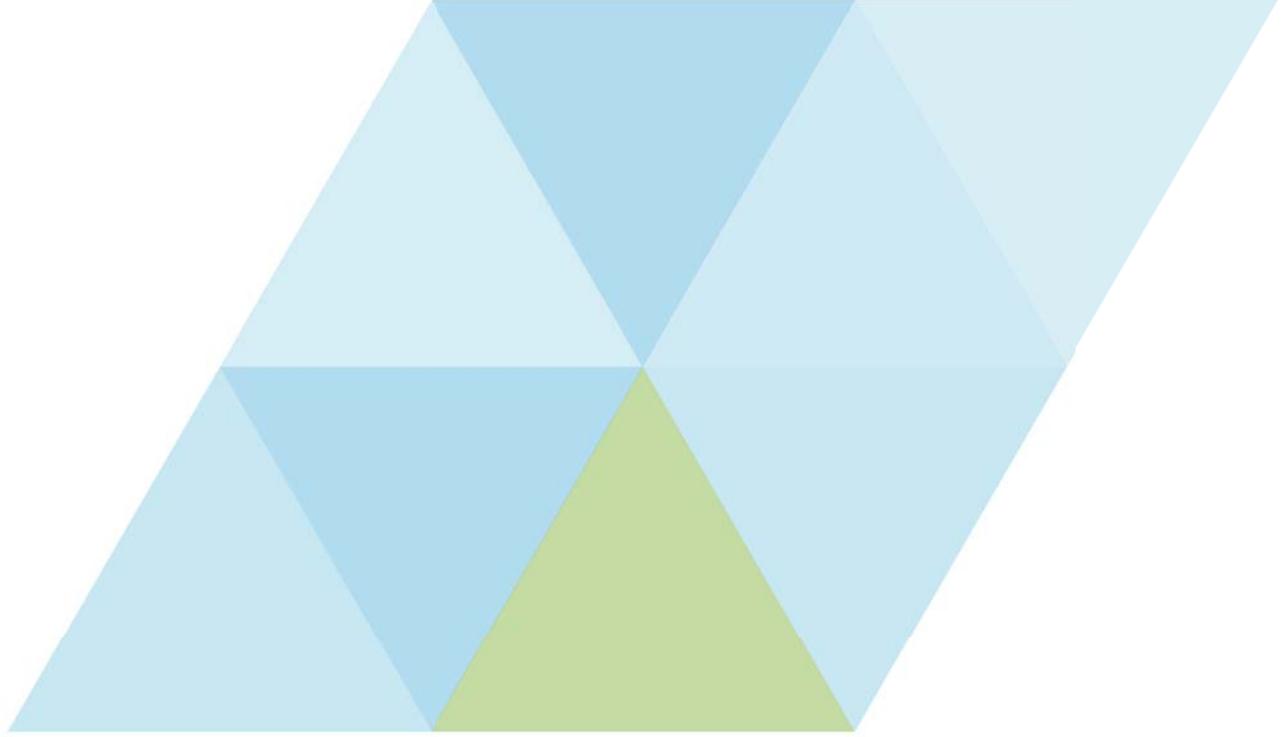

Radio:

Frequency Coverage	FM
IF	87.5 to 107.9 MHz.
Sensitivity (S/N=30dB)	10.7 MHz
Stereo Separation	4 μ V
	>25dB
Frequency Coverage	Weather Band
Sensitivity (S/N=30dB)	162.400 to 162.550MHz
	18 dBu
Frequency Coverage	AM(MW)
IF	530 to 1710KHz
Sensitivity (S/N=20dB)	450 kHz
	36 dBuV

TROUBLE SHOOTING

Before going through the checklist, check wiring connection. If any of the problems persist after checklist has been made, consult your nearest service dealer.

Symptom	Cause	Solution
No power.	The car ignition switch is not on.	If the power supply is connected to the car accessory circuits, but the engine is not moving, switch the ignition key to "ACC".
	The fuse is blown.	Replace the fuse.
No sound.	Volume is in minimum	Adjust volume to a desired level.
	Wiring is not properly connected.	Check wiring connection.
The operation keys do not work.	The built-in microcomputer is not operating properly due to noise.	Press the reset button.
The radio does not work. The radio station automatic selection does not work.	The antenna cable is not connected.	Insert the antenna cable firmly.
	The signals are too weak.	Select a station manually.
