

## PLPTS26

### Laptop Computer Stand for DJs with Storage Shelf

<http://www.pyleaudio.com>

Thanks for purchasing the **PLPTS26**, an awesome laptop stand from Pyle Pro that's perfect for DJing. It places your laptop at an angle for easy access while you drop your beats. Plus, it has a variable height adjustment and a storage shelf to hold your cell phone, memory cards, and anything else you might need. Holds up to 8 lbs. Also compatible with CD players, controllers, EFX machines, and lighting controllers.

#### Specifications:

- Ideal For Holding Your Laptop, CD Player/Controller, EFX Machine Or Lighting Controller
- Includes a Storage Shelf
- This Versatile Stand Can Stand Alone On Any Flat Surface For Quick And Easy Set-Up
- Features 4 Easy Line-It-Up Height Adjustments
- Platform Dimensions: 9.25''w x 10.8''D
- Height Range: 6.3 - 10.9 inches
- Weight Capacity: 8 lbs.

Your kit includes one (1) set of the following items:

2 x L-bar (left, right)

2 x L-bar with rubber stoppers (left, right)

2 x support bars

2 x bar extenders (unscrews to 4)

1 x storage rack plate

**1.** Start by removing the end screws from the two support bars. Additionally, loosen up the screws on the storage rack plate so that the plate can expand freely.

**2.** Separate the support bar extenders by unscrewing them. Then, screw on an extender to each end of both bars.

**3.** Next, you will be connecting two of the L-bars and the Use one with rubber stoppers and one without. Make sure that the two L-bars are for the same side. The base and the rubberized part of each respective L-bar should be facing the same direction. Layer the pieces as follows: bottom L-bar (without stopper), top L-bar (with stopper), storage tray. Insert a screw through the outside-facing part and screw on the support bar on the inside.

3. Repeat the L-bar, storage plate, and support bar steps for the other side.

4. Connect the other support bar between the two L-bar supports.

Once everything is connected, you can tighten the screws on the storage plate.

5. Your stand is now complete!
