

PMKSPAD1

Multimedia Microphone Stand With Adapter for iPad 2
(Adjustable for Compatibility w/iPad 1)

<http://www.pyleaudio.com>

Thanks for purchasing the **PMKSPAD1**, an innovative new stand adaptor from Pyle that allows you to use a microphone stand to hold your iPad 2. It securely holds your iPad with sure-grip touch points, preventing scratching or marring. Easily snap it in or out with the quick-snap clips. Just screw it on to the included microphone stand, or use your own. Try it on the boom for increased mobility, or place it vertically on the stand for stability. The iPad can be used in portrait and landscape modes.

Specifications:

- Sturdy, Durable Construction With Sure-Grip Touch Points — Securely Holds Your iPad Without Scratching Or Marring It
- Multi-Angle Adjustment Allows Precise Positioning For Optimal Stage Or Studio Viewing
- Quick-Snap Clips Provide Fast, Secure iPad Insertion
- Fast Installation — On Your Mic Stand In Seconds With The Twist Of A Knob
- All Controls, Buttons And Connectors Are Accessible When Your iPad Is Clipped On
- Can Be Mounted On The Vertical Part Of A Mic Stand, Or On A Horizontal Boom
- Also Compatible With The iPad 1

Your kit includes one (1) set of the following items:

1 x tripod base bar

1 x extender bar

1 x boom bar

1 x multi-mount boom clip

1 x iPad holder with universal clip

1. Start with the **tripod base bar** piece. Loosen the screw so that you can lower the tripod stand to extend the legs. Then tighten to secure the legs in place.

2. Next, insert the **extender bar** into the tripod. The extender bar is threaded on one end, and has a *moveable* grip on the other. Make sure you do not use the boom extender, which does not have a moveable grip. Then screw the handlebar into place.

3. Screw on the **multi-mount boom clip**, then insert the **boom bar**. Rotate the silver bar clockwise to tighten the mechanism.

4. Note: For compatibility with the iPad 1, you will need to make adjustments to the four clips, as it is slightly larger than the iPad 2. If you have the iPad 2, skip this step. Remove the rubber pads. Then, using a pair of pliers, *carefully* bend each corner on the iPad holder slightly back.

5. Now, attach the **iPad holder** to the extended boom bar by loosening the screw, sliding it on, and then tightening the screw when you find a spot you find appropriate. Your stand is now ready to use!
