Megaphone Speaker with LED Lights

Built-in Rechargeable Battery, LED Lights,  
Siren Alarm Mode & Adjustable Volume Control

## PMP561LTB

### Megaphone Speaker with LED Lights

#### Built-in Rechargeable Battery, LED Lights, Siren Alarm Mode & Adjustable Volume Control

This user manual contains important information for safe operation and optimal megaphone performance. Please carefully read and follow safety notes and instructions. Save this manual for future reference. Make sure that it is available to all persons using this device.

**\*Important Note\*:** Before operating the megaphone, ensure you hit the correct switch to the proper position when **CHARGING/OPERATING** Mode.

### SAFETY

This megaphone is intended to be used only as described in this user manual. Any other use or use under other operating conditions is considered to be improper and may result in personal injury or device damage. Please use the megaphone as described and under supervision if used by children or minors.

- Ensure that plastic bags, packaging, etc.
- Never let children unattended use electrical devices.

## OPERATING INSTRUCTIONS

- Insert (8) x 'C' Batteries
- Use the sliding switch to choose PA Modes

### Speak:

While in 'Speak Mode', speak through the microphone mouthpiece while holding the 'Press-to-Talk' button on the detachable handheld differential mic. The user also has the ability to use the 'PA Talk Trigger Switch' on the megaphone's handheld pistol grip.

### Siren:

Slide the switch over to 'Siren' and an automatic, continuous alarm siren plays. Switch to another mode to discontinue the alarm siren play.

- Adjust volume control located on the right hand side of the removable differential microphone.
- Press the trigger or use the External Microphone, speak directly to loud your voice
- Turn on the LED light switch by sliding the switch with light icon

## Battery Charging

1. The megaphone features a removable rechargeable battery, that plugs-in directly into the USB wall power outlet for charging. Once connected to the wall power outlet, the battery will begin charging automatically, after you set the battery to "**Charge Mode**" (average time for full-charge: **8.5 hours**). A Red light will be lit while charging and turns Green when fully charged.

2. **\*Important Note\***: Before charging the battery, ensure you hit the switch to "**DC CHARGING**" -- as located on the battery, to enable Charge Mode.
3. Once fully charged, insert the battery into the megaphone by opening the end cap in the rear of the megaphone. Be sure to slide the battery into the compartment properly, ensuring the power connection cable is exposed.
4. Once the battery is inserted, connect the battery power cable connector into the megaphone power input -- ensure you set the battery to "**Power Output**" Mode.
5. **\*Important Note\***: Before operating the megaphone, ensure you hit the switch to "**DC OUTPUT**" -- as located on the battery, to enable Power Output Mode.
