MINI PROJECTOR USER MANUAL

1. Accessories List

AV signal cable	1pc
Remote control	1pc
Power cable	1pc
User manual	1pc
Warranty card	1pc

2. Important Safeguards

- I. Please read the manual carefully before operating projector.
To ensure stable power supply, please use standard power cord.
- II. Please use the power supply and cable indicated on the rating label.
The projector should be kept away from cloths, sofas and anything that may block the ventilation scoop. Please keep the unit away from flammable and explosive materials.
- III. Please do not disassemble the unit yourself as this will invalidate the warranty service.
To protect your eyes, do not stare directly at the lens when the projector is on.
The projector must be kept away from water and any other liquids.
- IV. To prevent electric shock, please keep the projector out of the rain and away from moisture.
It is recommended to switch off the projector after it has run for 6 hours non-stop.
Please use the original foam and other cushioning materials when transporting the projector.
- V. If the projector does not work, please contact the authorized service agent.
