USER GUIDE

Before using your new product, please read these instructions to prevent any damage.

Important safety instructions
• Read these instructions.
• Keep these instructions.
• Heed all warnings.
• Follow all instructions.
• Do not use this apparatus near water.
• Clean only with dry cloth.
• Do not block any ventilation openings.
   Install in accordance with the manufacturer's instructions.
• Do not install near any heat sources such as radiators, heat registers, stoves, or
   other apparatus (including amplifiers) that produce heat.
• Do not defeat the safety purpose of the polarized or grounding-type plug.
   A polarized plug has two blades with one wider than the other. A grounding type
   plug has two blades and a third grounding prong. The wide blade or the third prong
   are provided for your safety. If the provided plug does not fit into your outlet, consult
   an electrician for replacement of the obsolete outlet.
• Protect the power cord from being walked on or pinched particularly at plugs,
   convenience receptacles, and the point where they exit from the apparatus.
• Only use attachments/accessories specified by the manufacturer.
• Unplug this apparatus during lightning storms or when unused for long periods of
   time.
• Refer all servicing to qualified service personnel. Servicing is required when the
   apparatus has been damaged in any way, such as power-supply cord or plug is
   damaged, liquid has been spilled or objects have fallen into the apparatus, the
   apparatus has been exposed to rain or moisture, does not operate normally, or has
   been dropped.
• To reduce the risk of fire or electric shock, do not expose this device to rain, moisture,
   dripping, or splashing, and no objects filled with liquids, such as vases, shall be
   placed on it.

Using close to a TV or computer
Some older TVs and computer monitors are magnetically sensitive devices and as such
are likely to suffer discoloration or picture distortion when conventional speakers are
placed nearby. If discoloration problems persist, try moving the soundbar away from
your TV or monitor.

Placement
• Sensitive to extreme temperatures and humidity. Do not put it in locations subject
   to direct sunlight or in humid places, such as near an air conditioner, humidifier,
   bathroom, or kitchen.
• Do not put water or other liquids close to the soundbar.
   If liquid is spilled over the soundbar, it may be damaged.
• The soundbar should be placed on a sturdy, flat surface that is free from vibration,
   or mounted on a wall. Do not put the soundbar on an uneven or unstable surface,
   where it may fall and cause damage.
