Other Information

- Please be aware that swimming pool and sea water are corrosive and to keep your MP3 player in good condition we recommend that you rinse it in fresh water after use.
- The water will enter into the earphone and turns the voice down when you are swimming. The voice will turn up again when you shake off the water that inside the earphone.
- Your PSHWPMP3 MP3 player is waterproof down to a depth of 3 meters. It is suitable for use in the shower, bath or while swimming on the surface in a pool or in the sea.
- To ensure proper use, make sure you pull on the jack instead of the MP3 player.
- Do not connect your USB cable to the PC while the water remain inside your phone jack. It may cause short circuit and damage the system. Do shake off the water before the connection.

Note : User may find out the earphone lines are not equally in length. This is to be connected to PSHWPMP3 player which may be worn on user's right or left side on his head.
