GLUE BOARD INSECT TRAP

User Manual

The Glue Board Insect Trap utilizes the UV-A tube to attract the flying insects, which will be adhesive on the glue board pad and die. No chemicals, no smell, no sprays, no mess, pollution free and harmless to humans and pets. It is ideal for using in restaurant, kitchen, hotel, hospital or dining room places, etc. **Indoor use only!**

WARNINGS:

1. Children cannot play with it.
2. Keep away from flammables.
3. Check the local voltage before operating.
4. Put on a place where children cannot reach.
5. If damaged, supply cords must be repaired or replaced by a qualified technician.
6. It cannot be used in garage, stable or similar places.
7. Replace the glue board regularly. We suggest you to replace the glue board pad monthly and replace it immediately once there is full of flying insects on the pad.

THE COMPULSORY CAUTIONS:

"This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety"
