Indoor/Outdoor Electric Bug Zapper

Electric Bug Zapper

Indoor/Outdoor Plug-in Weather-Resistant Pest Control

USER MANUAL

Instruction Manual

Electric Bug Zapper

The **Indoor/Outdoor Electric Bug Zapper** utilizes the high quality UV-A LED tube, which is proved to be the most effective lure for light sensitive flying insects, such as flies, moths, mosquitoes, and other flying insects. These insects are electrocuted by the high voltage inner grid. No chemicals, no smell, no sprays, no mess, pollution free and harmless to humans and pets. It is ideal to use in a garden, patio, back yard, and other similar places. The **Electric Bug Zapper** has water-resistant standards and marine grade waterproof protection rated. **Avoid direct contact with any type of water or liquid.**

RAIN CONTROL SYSTEM FUNCTION

To ensure the safety, the product has a rain control system installed . When in heavy rainy days, the product will stop working automatically. Once it gets dried, it will continue to work again.

LIGHT SENSOR CONTROL SYSTEM FUNCTION

The product is installed with a light sensor to work intelligently located in the plastic cover on top.

1. The light sensor will not work once covered.
2. The light sensor will start to work once the cover is taken out. In day time, the product will stop working automatically. When at night or in dark places, the product will turn **ON** automatically.

WARNINGS:

- High voltage! ⚡ Do not touch the inner electric grids.
- Children cannot play with it.
- Never put metal objects inside the grids while in operation.
- Keep away from flammables.
- Check the local voltage before operating.
