HOW TO INSTALL

USAGE 1

Use on the desktop

- Step 1:** Take out the isolation shield and all accessories on the desk.
- Step 2:** Install adapter on connecting rod (and then install the microphone on the adapter).
- Step 3:** Pass the connecting rod through the crossbar of the isolation shield (the connecting rod can move forward and backward to adjust the position).
- Step 4:** Combine connecting rod and washer with nut.
- Step 5:** Use it on the desk (**Note:** microphone and shock mount are not included).

USAGE 2

Use with floor stand (5/8 interface)

Step 1: Take out the isolation shield and all accessories on the desk.

Step 2: Take out the floor stand.

(Note: The floor stand, microphone, shock mount and pop filter is not included in the product and the customer needs to prepare it himself).

Step 3: Combine the nut, connecting rod and adapter (the connecting rod can move forward and backward to adjust the position).

Step 4: Install washer, screws and nut on the crossbar of the isolation shield

Step 5: Fix the Isolation Shield on the floor stand (as the picture shows)

USAGE 3

Use with floor stand (3/8 interface)

Step 1: Take out the isolation shield and all accessories on the desk.

Step 2: Take out the floor stand.

(Note: The floor stand, microphone, shock mount and pop filter is not included in the product and the customer needs to prepare it himself).

Step 3: Combine the nut, washer, connecting rod and adapter (the connecting rod can move forward and backward to adjust the position).

Step 4: Fix the sound enclosure to the floor stand with nuts and washers.
