Audio Karaoke Wireless BT Amplifier

Stage & Studio Sound Mixer Receiver System

with Microphone Talk-Over, MP3/USB/SD/AUX, Rack Mount

Pyle's Wireless BT 8/12CH Amplifier is the perfect solution for all of your audio needs. Using the latest sound amplification technology and an impressive 8000 /12000 Watt power output, this receiver is designed to deliver pure 8/12CH sounds from a wide range of connected music sources. Built-in Wireless BT audio receiver ability allows you to stream your music wirelessly and it works with all of your favorite devices (like Smartphones, Tablets, Laptops, Computers, etc.) Enjoy full range 8/12CH sound reproduction when streaming audio with a wireless range of up to 30' feet. Additional system features include FM Radio with LED display, USB Flash Drive Reader, SD Card Reader, (2) 1/4" Microphone Inputs, Binding Post Speaker Terminal connectors, (3) RCA Stereo Inputs, Line Stereo RCA Output, and along with an Aux (3.5mm) jack to connect even more external devices. Take control of your sound with the Pyle **PT8050CH** & **PT12050CH** Wireless BT Stereo Amp Receiver.

High Performance Features:

PT8050CH & **PT12050CH** is a power amplifier to deliver clean power to your speakers. **PT8050CH** & **PT12050CH** with best design and best components can give you a profoundly positive effect on sound quality for your home theater, media room, or whole-house audio system. Design and customize a home theater that fits seamlessly into your home usage, and Multi-channel amps like the **PT8050CH** & **PT12050CH** incorporate high-efficiency, space-saving digital technology. Or go big with complete, whole-house audio solutions. Whether you want to maximize your home theater experience or transform your living space, PYLE Audio has total solutions to help you get the most out of your movies and music from clean power amplifiers to in-wall and outdoor speakers, subwoofers, custom controls, and more. Rated at 50 watts per channel RMS at 8 ohms, the **PT8050CH** & **PT12050CH** from PYLE Audio is driving complex audio systems and will distribute sound to 6 different locations without the risk of overload. Equipped with rack-mountable high current amp includes 8/12 channels (speakers), so owning this amp is like having three Stereo channel amps in one efficient location.

Make PYLE Audio as a Part of Your Total Audio Solution

PYLE Audio offers everything you need to design and build a complete home theater solution, customized to your home. In-wall speakers, amplifiers, custom control products, and more are all available to give you the perfect home audio experience, indoors or outdoors.

Available For Wall/Ceiling Speakers

Large cone areas pivoting drivers, ease of installation and exceptional sound quality make PYLE Audio's line of in-wall and in-ceiling speakers an excellent choice for those who don't want to give up precious floor or shelf space. PYLE Audio offers models with varying features, materials, and cone sizes to fit any application and budget.

Available For Outdoor Speakers

Make your next backyard BBQ or swim party special by installing an outdoor speaker system. PYLE Audio offers a huge selection of affordable models, from weather-resistant patio speakers to heavy-duty rock speakers that blend into any landscape. PYLE Audio outdoor speakers are built tough and tested under extreme weather conditions to ensure a long and happy life.

Available For Audio Control

A whole-house audio system lets you enjoy great sound in every room of your house. Pyle Audio has everything you need for a whole-house system, including volume controls, speaker selectors and IR repeater systems that let you hide your electronics neatly inside a cabinet. So choose the **PYLE Audio Amplifier** that's right for you.

Wireless BT Streaming Operation Instruction

External devices which have a built-in Wireless BT feature can be connected to this amplifier wirelessly to play through the amplifier's speakers.

1. At first be sure that the amplifier is powered **ON**, and turn the volume to the **MINI** position. And it's better to pull the Wireless BT Antenna on at the back panel for better receiving.
2. Press the BT/Line button switch in **ON** the front panel, you will hear the voice "**POWER ON**" and also "**PAIRING**", and then the unit is automatically ready to pair with your external device.
3. Turn **ON** the Wireless BT of your external devices like Smartphone, Computer, and others, etc.
4. Search for available Wireless BT devices within range of your external device and wait for your device to select "**BT-RY**" on the pairing devices lists.
5. And seconds later when you heard a voice "**Your Device is Connected**", then the Wireless BT pairing is success.
6. You can now play music on your external device through the amplifier.
