USER MANUAL

Before you start to assemble this with your device please check the mounting holes, the size of the monitor and the weight of the monitor is correct.

Normally for assembling this stand with your TV/Monitor, it is better to have two persons as some TV/Monitor is heavy or big.

The stand itself has been already assembled so you only need mount panel with the monitor or TV, so when you open the box you will find a complete stand with some hardware for mounting the panel to the TV or monitor.

Mounting screws are not included.

You can place down the stand and mount the panel with the back of your TV/Monitor, you need to choose the right bolts and right hole distance to match the VESA holes of the TV/Monitor, then set up the tripod. Expand the legs as wider as you can to be stable. Adjust knob in the middle to the height you need. Adjust the angle via the knob in the top to the better view angle you need and tighten it. Turn the monitor left or right to your desired position.

When you move the stand, it is better hold the TV firstly to be safe. You can also use it to mount other device.
