WIRELESS BT STREAMING OPERATION INSTRUCTION:

External devices which have a built-in Wireless BT feature can be connected to this amplifier wirelessly to play through the amplifier's speakers. If your amp is connected to speakers, you will hear audible tones which will help for connecting.

1. The unit will auto enter Wireless BT mode within 30 seconds after power on. If no other device is connected to Wireless BT during this time, unit will auto enter AUX mode.
2. When unit enter AUX mode, press "**MODE**" button on the front panel, the unit is automatically ready to pair with your devices when you hear audible tones.
3. Turn **ON** the Wireless BT of your external device.
4. Search for available BT devices and make sure to be within range of your amp, and wait for your device to select "**PYLEUSA**" on the pairing devices lists of Wireless BT networks.
5. You can now play music on your external device through the amplifier.

This product can expose you to a chemical or group of chemicals, which may include "Lead (Pb)" which is known in the state of California to cause cancer, birth defects, or other reproductive harm. For more info, go to <https://www.p65warnings.ca.gov/>.
