EasyBBQ app

Pair with your phone

Status Indicator

Blinking Green

Solid White

Blinking Blue

1. Press and hold the power button on the device for 3 seconds to power on.
2. Keep the blue-tooth switch of your phone on.
3. Launch the app, and follow the instructions in the app to pair and activate the device:
Press the Pairing Button (in the back of the device); or, scan the bar code on the package or on the device.
4. Connected successfully.

Once paired the device with your phone, you don't need to do it again, unless you change to other phones.

Insert the device

Insert the probe into the food, make sure the front tip of the probe is in the center of the food to get accurate temperature.

DO NOT put the device directly in fire flame. Keep the main unit as far as possible to fire.

Enjoy your barbecue time

Choose food type and preference for the food where each probe is inserted, the app will display its current and target temperature.

When the food is ready, the app and the device will alarm.

The user interface of the app may be changed when update. Please follow the instructions in the app.

Power ON/OFF

Power ON:
Press and hold the power button for 3 seconds.

- Power OFF:**
- Press and hold the power button for 3 seconds, with the LED turning into white for 1 second.
 - Auto-off after 8 hours out of connection with phone.

WARNING

DO NOT put the probes directly in the fire flame. The device has limited water resistance, DO NOT wash the main unit in water! Please clean it with a wet cloth instead.
