## Automatic Fire Ball Extinguisher with Mounting Bracket

ABC Fire Extinguisher, Fire Suppression Device,  
Fire Safety

**USER GUIDE**

### **AUTOMATIC FIRE BALL EXTINGUISHER INSTRUCTION**

1. Place the fire ball in which the flame occur easily, such as Electrical points, geysers, heaters, stove tops, fireplaces, kitchens, garages, workshops, near flammable liquids, ceilings, down light points, etc.
2. **Fix Height:** 30cm away from the possible fire source, the effective area is 1M<sup>3</sup> (0.5kg), 3M<sup>3</sup> (1.3kg), 9M<sup>3</sup> (4kg).
3. **Recommended Quantity:** To achieve the best protection, we kindly suggest placing 2 balls in the same location.
4. Fix the bracket on the wall and place the ball with the blue arrow directed downward.
5. **Fire Ball Extinguisher** will self-activate when it comes into contact with fire within 3 to 5 seconds.
6. New and advanced technology from Germany, harmless to human and environment, safe explosive range.

### **5 ADVANTAGES**

1. Light weight easy to operate and hence ideal fire extinguisher for the elderly, infirm and children.
2. Suitable for many places e.g. electric cabinet, gas barrel, flammable chemical area in the factory, shopping mall, gas station, hotel, car etc.
3. Activates within 3-5 seconds by touching flame, it will burst and extinguish the fire immediately.
4. There is NO need to move closer to fire, toss it from a distance and let the Ball do the work. It is made of totally harmless material and safe for users, the exploding power has been accurately calculated to be approved safe.
5. The Automatic Fire Ball Extinguisher is always at your service to extinguish the fire and no need to do regular inspection yearly. The product life span is 5 years, and the decibel when extinguishing the fire can be fire alarm to warn people in the fire scenes.

## Features:

- Auto Exploded when more than 160 °C Temperature
- Auto Exploded when throwing in the Fire
- With Three Bands Criss Crossing for Distribution of Powder for Fire Extinguishing
- Active Ingredients: Environmental Harmless Dry Powder
- Kills the Fire Immediately
- Lightweight and Portable
- Safe in any Transportation
- No Maintenance Needed
- Comes with a Wall Mounting Bracket

## What's in the Box:

- Automatic Fire Ball Extinguisher
- Suspension Bracket

## Technical Specs:

### SLFI5B

- Construction Material: ABS Body
- Alarm:  $\approx 120\text{dB}$
- Extinguishing Range :  $\approx 1\text{m}^3$
- Activation Time:  $\leq 1\sim 2\text{s}$
- Alarm Loudness:  $\approx 120\text{dB}$
- Activation Time: 3-5 seconds
- Weight: 1.21 lbs.
- Product Dimension: 4.33" -inches

### SLFI13B

- Technical Specs:
- Construction Material: ABS Body
- Alarm:  $\approx 120\text{dB}$
- Extinguishing Range :  $\approx 4\text{m}^3$
- Activation Time:  $\leq 1\sim 2\text{s}$
- Alarm loudness:  $\approx 120\text{dB}$
- Activation Time: 2-3 seconds
- Weight: 2.9 lbs.
- Product Dimension: 5.9" -inches
