SLHMW32

SLHMW33

WARNING:

To avoid unwanted situations, first sit slowly in the chair with your feet on the floor. Then gradually, shift your weight from feet to the chair. If it holds you, it means you have done the right installation of the hammock chair.

NOTE:

The accessories for ceiling method are not included, means you have to purchase these accessories to do the right installation.

HOW TO HANG A HAMMOCK CHAIR FROM A TREE

You will need

- Ladder
- A Tree or Ceiling or Pergola

1. First, locate the branch where you want to hang your chair. Make sure that the branch is strong enough to bear your weight.
2. Put the strap around the branch to connect the chain after.

NOTE: You can connect the hammock ring to the tree strap directly with a bigger hook.

3. Now hold the swing chairring and put the chain inside out.
4. Finally, link the chain with the hook and connect the hook to the tree strap as well.

HOW TO HANG A HAMMOCK CHAIR FROM A CEILING OR BEAM?

You will need

- Ladder
- Stainless steel ceiling mount
- Stud finder
- Bolts or screws and hooks
- Drill

1. Find a sturdy beam on the ceiling by using a stud finder. Make sure you use a pencil to mark both sides of the joist. It is extremely important that you drill into the middle of the joist or beam (skip this step for concrete ceiling).
2. Drill 4 holes on the dry wall/beam or concrete of the mount's holes
3. Install the ceiling mount using the 4 bolts or screws, depending on the surface
4. Attach 1 spring hook to the ceiling mount and hang the chain. Adjust chain to the desired height
5. Attach the hook to the other end of the chain and then hang your hammock chair.
